Chapter 1. Launch calculator app

What is a calculator?

Here you will learn about the calculator app.

Calculator is an app used for making mathematical calculations, in particular a small electronic device with a keyboard and a visual display.

How to launch a calculator app?

How to start the calculator application

You can use a calculator app on your smartphone. You will find it useful, when you need to quickly calculate some numbers. For example, if you have purchased a book for 5\$ and you have given 10\$, how much change should you expect? Answer is $10-5=5$ \$ change.

1. Unlock the phone.
2. Navigate to the Calculator application icon.
3. Touch the icon.

The application starts. You are now ready to calculate with it.
